Transcripts of Records of University of São Paulo

Dear Partner,

The University of São Paulo recently implemented ***electronic authenticity control code*** to reduce the cost of printing student transcripts.

The authenticity of the document issued with the authenticity control code can be verified on the University of São Paulo page https://portalservicos.usp.br/iddigital?idioma=I (English version)

The authenticity code can be seen at the top of the document, like the example below:

Código de controle de autenticidade: 1Z8A-1KXX-QZYX-S4FR A autenticidade deste documento pode ser verificada na página da Universidade de São Paulo https://uspdigital.usp.br/webdoc

For that reason, we count on your understanding that we will avoid forwarding transcripts of records (TOR) on physical paper by mail, prioritizing the digital sending via email.

If you have any questions or comments on this topic, we are always available through our email address: international.fau@usp.br .

Thank you for your attention.

Ms. Fernanda Samie Shoshi
Head of Academic Support Section
International Office – FAUUSP
